

EXPERTISE

JO Consulting was founded in 1998. Its core business is based on fund raising for Research and Innovation at European, national and local level. Thanks to its international network composed by firms, research centres and public administrations, JO Consulting has a strong expertise in consortia management at a European level.

EU Projects

Join Europe with us!

We support customers in the conception and preparation phases of projects related to EU calls. These activities are divided into the following tasks:

Scouting and Planning

- Study of calls;
- development of international relationships to create transnational consortia;
- drafting of the project, definition of the work program and related budget, submission of application to EU entities.

Management

- Management and coordination of financed projects, in the various implementation phases;
- accounting of sustained expenditures;
- drafting of technical and financial reports to be submitted to the EU bodies responsible for official evaluation of the project outputs.

EU Programmes

- CIP - Competitiveness and Innovation Programme
- Eco-Innovation
- ENPI - European Neighbourhood and Partnership Instrument
- FP7 - 7th Framework Programme for Research and Technological Development
- ICT-PSP Policy Support Programme
- IEE - Intelligent Energy Europe
- Life+
- LLP - Lifelong Learning Programme

Fund Raising

More opportunities for your business.

JO Consulting supports own customers to get grants. The consulting activity includes the following steps:

- scouting of funding opportunities;
- making business plan;
- at start up of the project JO Consulting supplies administrative and technical support for management of relationships with central and local authorities;
- assistance in expenditure reporting;
- specialist support during inspection visits carried out by local agencies.
