JO

JO is a group of companies with core business in:

- Corporate consulting: grant award, European project management, tax consultancy and labor consulting;
- Engineering: design and supervision of works, renovation of buildings, renewable energies and energy efficiency;
- Marketing: online communication, positioning on search engines and social media marketing;
- Web technologies: R&D in the field of ICT, web applications, mobile app and e-Learning technologies.

Two non-profit organisations are part of JO and operate in the sectors of:

- Active citizenship;
- Social inclusion of groups at risk (young people, women, long-term unemployed people).

The mascot is an ant, because JO focuses on organisational skills and teamwork.

**BORN TO
INNOVATE**

JO Consulting

JO Consulting started its activity in 1998. Its core business falls into grant award, both through financial resources provided directly by the European Commission, and applying to the Structural Funds managed at National and Regional level. It often works as project coordinator of international projects in a European network together with public and private research centres, companies and public administrations, creating value in a win-win logic.

IPPO Engineering

Ippocrate AS, also known as **IPPO Engineering**, is an Engineering company born in 2004 and active in the following sectors: buildings, renewable energies and services of energy efficiency. The choice of the name of the father of Medicine, Hippocrates from Kos, who was a strong supporter of the theory of balance, represents the company's business card, since its mission is to adopt technological innovations for a sustainable development.

Moka Adv

Moka Adv is a marketing agency operating across Europe since 2008. The international experience acquired as web agency has helped its team to adapt easily to changes in the contexts of languages, aesthetic sense and used technologies. Moka Adv develops websites and deals with the enhancement of the web reputation of its clients.

Moka Adv

VITECO

Since 2004 **VITECO** operates as provider of user-friendly e-Learning platforms for Distance Learning.
The company's services are:

- Designing of Distance Learning Systems: the customer can choose among 5 platforms, which differ for the used technology and graphic layout, enabling to cover any type of need;
- Content development: implementation of online courses, simulations, educational games and conversion of video-courses in SCORM format;
- LMS integration hosting and administration: integrations of the e-learning platform with company management systems.

P.M.F.

Since 2003 **P.M.F.** has its core business in R&D in the field of ICT taking part in numerous international projects together with public research bodies, Universities and enterprises.

The fields of application are:

- apps;
- data aggregators;
- e-learning;
- gaming;
- geolocation;
- web based management;
- internet of things;
- indoor maps;
- virtual reality;
- digital security;
- system integration;
- tele-control;
- semantic web;
- cloud technologies.

Formazione Professionisti

Since 2012 **Formazione Professionisti** operates as a marketplace for e-Learning courses offering training courses, at competitive and accessible costs, to all type of professional categories. Nowadays, Distance Learning represents an effective opportunity for professionals, who want to fulfil the Obligation of Lifelong Learning, giving them the chance to switch from a passive mode of attending the training courses to a dynamic method that foresees their active role in the learning process.

Formazione Professionisti

e-Medine

e-Medine is a private non-profit association constituted under the Italian Republic Law. Its main aim is to promote active citizenship, democratic engagement and civic participation of social actors, in particular, young citizens and public administrations within the Mediterranean region, through the implementation of awareness raising campaigns and round tables, introducing and testing examples of best practices from Europe. Its mission consists of the following activities:

- Promoting culture of active citizenship;
- Development and implementation of innovative formal and non-formal online training programmes;
- Identification of trends and best practices to fight corruption in public administrations;
- Transfer of innovative ideas aiming at the sustainable development of the territory and empowerment of citizens.

e-Medine

JO Education

JO Education is a non-profit organisation promoting a better integration in the labor market and in the society of disadvantaged people and groups at risk, in particular, young people, women and long-term unemployed people.

JO Education aims to support:

- Creation of an inclusive society;
- Promotion of gender equality;
- Development of innovative formal and non-formal training programs targeting NEETs, women, unemployed, immigrants and employees in search of new forms of training and education.
