

## SERVICES

**P.M.F.**, partner of JO ([www.jogroup.eu](http://www.jogroup.eu)), was founded in 2003 with the aim to become a laboratory for Research and Development in ICT and to provide specialized training using e-learning technologies.

### RESEARCH & DEVELOPMENT

- Coordination and management of research projects in the field of ICT;
- Expertise in Knowledge Management technologies and Cloud Computing;
- Development of Semantic Web services and Social Networking infrastructures for collaborative learning and knowledge sharing.

### TRAINING

P.M.F. aims to utilize e-learning technologies particularly suitable for organizations with a high number of employees, franchise chains, companies with high turnover, companies with mandatory training courses and professionals.
