## EU PROJECT CONSULTING AND STRUCTURAL FUNDS

JO Consulting is a company specialised in consultancy on grants, using structural funds, and in EU project consulting. Thanks to the experience gained since 1998, JO Consulting is able to offer support to companies and entities that want to access the financial opportunities offered by the European Commission, Ministries and Regions.

## CONSULTING IN STRUCTURAL FUNDS

JO Consulting helps companies and organisations in research and access to structural funds. The activity develops in the following phases:

- ✓ animation and sensitisation of the business environment about existing forms of incentives;
- ✓ company checkup, scouting of facilities, analysis of best practices and assessment of financial coverage for the implementation of the investment project;
- ✓ design and presentation of the business plan;
- ✓ support in the preliminary investigation by the granting entity;
- ✓ assistance in the start up and management of the project in relations with the granting body;
- ✓ support during inspections conducted by the relevant entities;
- ✓ assistance in the reporting of expenses.

## EU PROJECT CONSULTING

The consulting activity on European funds is based on tenders managed directly by the European Commission. In particular, the activity is developed in the following phases:

- ✓ identification of the multiple EU programmes, analysis of the eligibility rules and disbursement of funding;
- ✓ development of international relations for the establishment of transnational partnerships, partners search, also thanks to an already acquired network of European universities and SMEs;
- ✓ drafting of the project in English, definition of the work programme and budget, submission of the application to the relevant EU organs;
- ✓ management and co-ordination of funded projects in the various stages of implementation;
- ✓ monitoring and reporting of expenses incurred;
- ✓ drafting of reports to be submitted to the competent EU organs for the official evaluation of project outputs.
