

JO CONSULTING: EUROPEAN PROJECTS IN CATANIA SINCE 1998

JO Consulting is a consulting company with expertise in European projects and structural funds, active in Italy and Europe since 1998. Due to its long experience in consultancy, **JO Consulting** helps companies and institutions to get all the funding opportunities from European Commission, National Ministries and Regions.

CONSULTING IN STRUCTURAL FUNDS

JO Consulting helps companies and other organizations in searching and getting structural funds to support initiatives in a wide range of sectors. In particular, the activities are developed as it follows:

- 1. Raising awareness of the business environment about the existing types of incentives;**
- 2. Company check-up, scouting of the grant opportunities, best-practices analysis and evaluation of the financial coverage for the realisation of the investment project;**
- 3. Investigation, economic and financial planning, design and development of the business plan, submission of the project;**
- 4. Follow-up of the grant application and support for the launch of the project and for the management of the relations with central and local authorities;**
- 5. Support in expense reporting and specialist support during the inspections carried out by the competent bodies.**

CONSULTING IN EUROPEAN PROJECTS

European projects activities focus on calls for proposal managed directly by the European Commission. In particular, the activities are developed as it follows:

1. Identification of the EU programmes, analysis of the eligibility and of financing criteria;
2. Development of international relations in order to set up trans-national partnerships, by looking for new partners or the established ones among universities and European SMEs;
3. Drafting of the project proposal in English, definition of the work-plan and of the related budget, submission of the application to the specific Community bodies;
4. Management and coordination of the funded projects in their various stages of implementation;
5. Monitoring and reporting of the expenditures;
6. Editing reports to be submitted to the Community bodies in order to receive the official evaluation of the outputs produced during the lifetime of the project.
