

JO Group

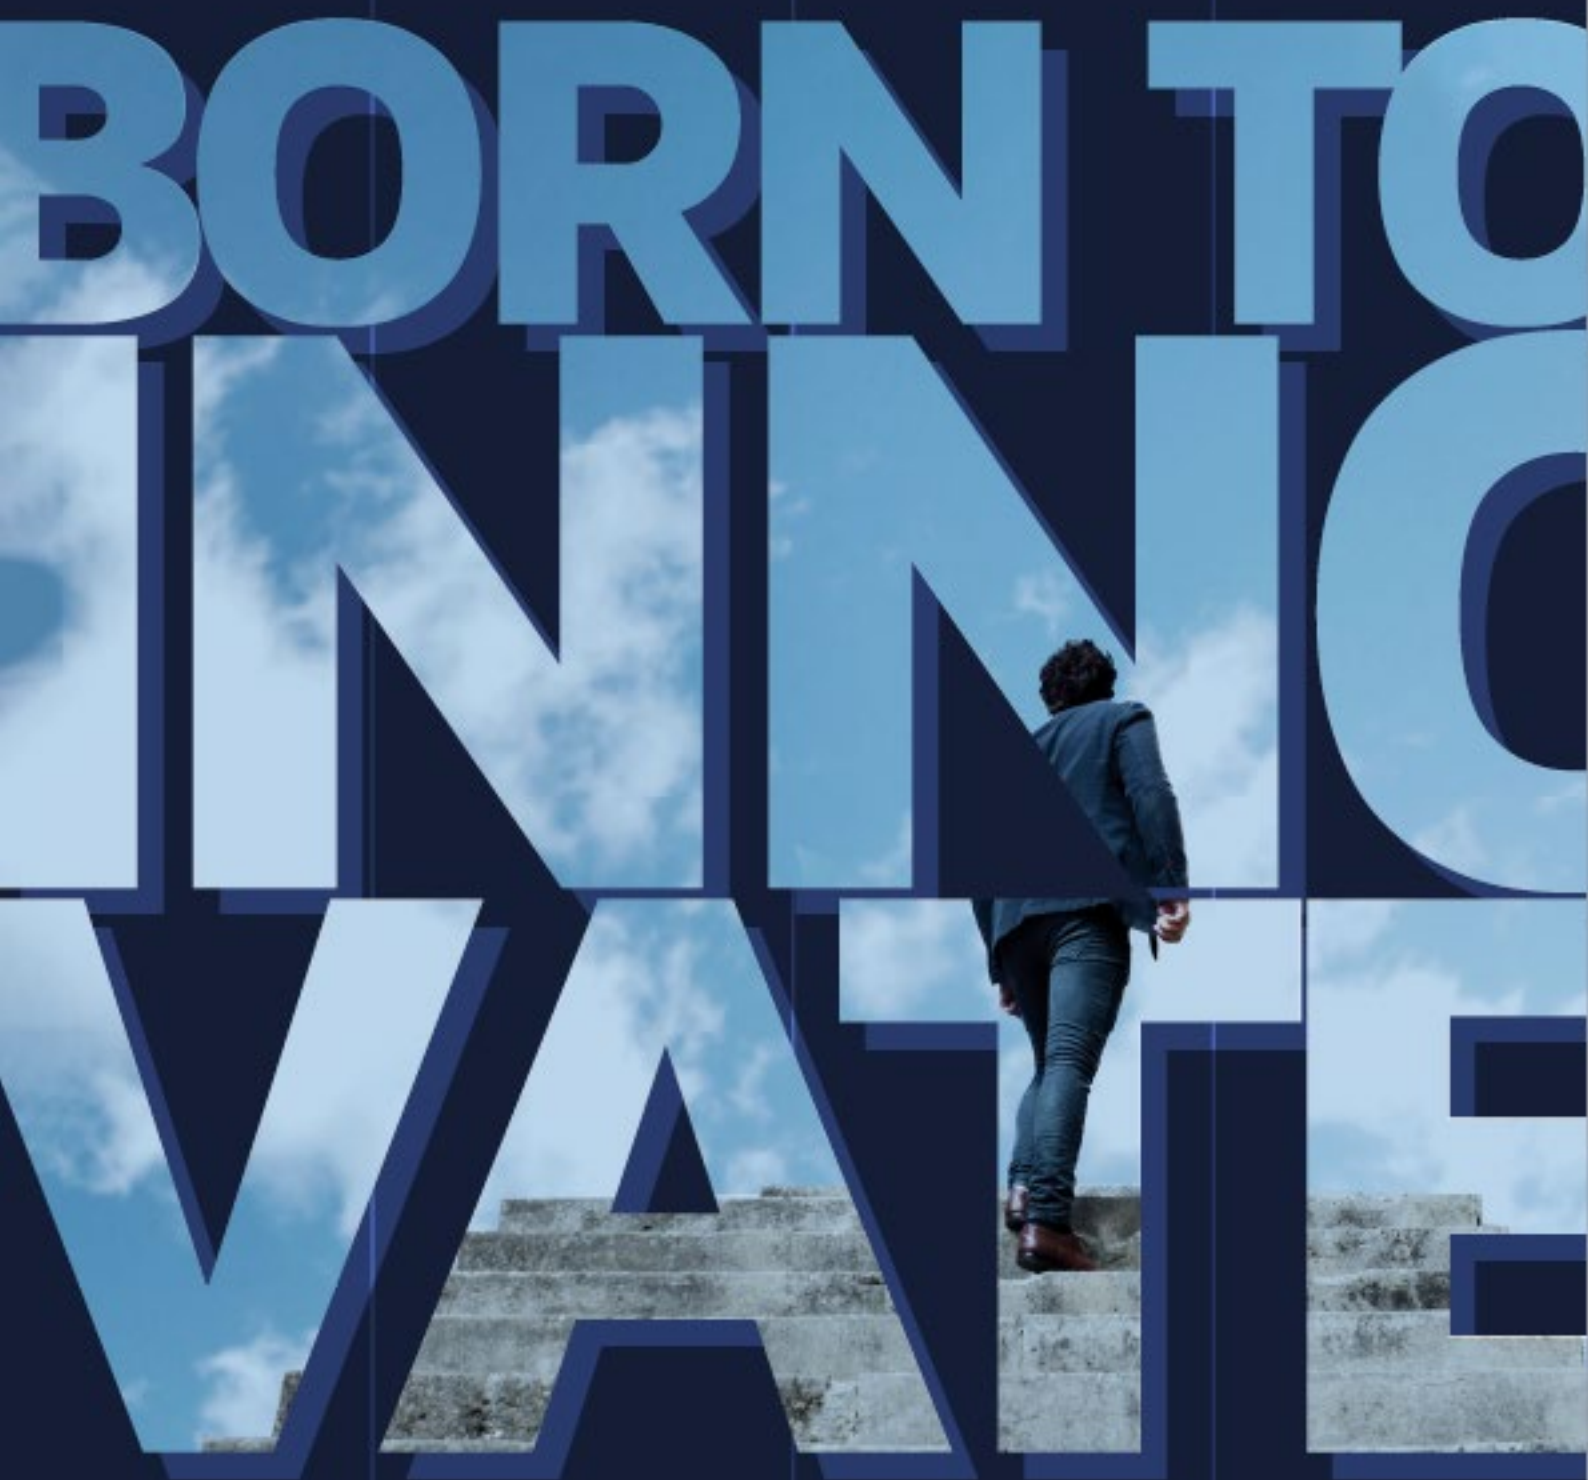

company profile

DIGITAL TRANSFORMATION AND EU PROJECT CONSULTING SINCE '98

JO Group is a cluster of companies founded in 1998 with core business in digital transformation and EU project consulting. In particular, its areas of expertise range from the development of e-learning platforms and serious games to the conversion of online courses into SCORM format, from EU project consulting to international web marketing. And then again: ICT research and development, e-health, app development, agritech and software for environmental technologies. Finally, with the two nonprofit organisations that are part of the cluster, it deals with the promotion of digital transformation and EU citizenship.

E-LEARNING SOLUTIONS

Since 2004, the software house VITECO has been developing e-learning platforms and serious games throughout Europe and is specialised in the conversion of online courses in SCORM format. VITECO, therefore, does not provide distance learning, but acts as a technology partner supporting training organisations, CME providers, schools, universities and companies that focus on distance learning.

SOFTWARE FOR ENVIRONMENTAL TECHNOLOGIES

IPPO Engineering has focused on software for environmental technologies, renewable energy and energy efficiency since 2004. Ready to adopt the latest digital innovations, it is adept at forging partnerships with both Italian and European companies and institutions.

RENEWABLE

The image features the word 'RENEWABLE' in large, light blue, 3D block letters. The letters are arranged in three rows: 'REN' on top, 'EWA' in the middle, and 'BLE' on the bottom. The letters have a slight shadow and are set against a dark blue background. Through the cutouts of the letters, a landscape with a green field and a white wind turbine is visible. The turbine is positioned behind the 'E' in the second row and the 'L' in the third row.

EU PROJECT CONSULTING

JO Consulting is specialised in EU project consulting and grants. It operates in Italy and Europe since 1998 offering consultancy to companies, associations and public entities. It is a weaver of international partnerships, the first credibility factor for winning in the European context.

WEB MARKETING

Moka Adv is an Italian web agency that operates since 2008 with a clients' portfolio covering the whole Europe, with work of all sizes and types.

EUROPE DIRECT CATANIA

e-Medine is a non profit organisation that promotes European citizenship and encourages the cultural convergence of Mediterranean countries into one big motherland: Europe.

e-Medine is Europe Direct Catania, where it is possible to acquire information on the European Union and benefit from services supporting citizens. Its objective is to make people aware of the importance of a European identity and integration in all its aspects (social, economic and cultural).
